

MINES AND MINING STOCKS FINANCIAL AND COMMERCIAL

CHEAP POWER IN MINING CAMPS

Brought Under One Flag.

A deal was closed in this city yesterday whereby the properties of the Beaver Consolidated and Ben Harrison companies, operating in Beaver Lake district. Beaver county, are consolidated. The Consolidated company is called the Beaver county, are consolidated. The Consolidated company is called the Beaver tharrison Mining company, its capitalization being fixed at 1,300,000 shares, the stockholders in the older companies, receiving share for share in the new, while 500,000 shares go into the treasury. The stock of the new corporation is made assessable, however, as a levy of 2 cents a share will wipe out the indebtedness of both of the old companies and provide a working capital as well, it is hardly likely that the treasury stock will be touched at all. J. J. Trenam, the father of the old companies and the manager of the old companies and the manager of the properties, has worked hard to bring about the consolidated company owns over 400 acres of ground right in the heart of the mineral zone of the district. The shaft on the Beaver Con. portion of the territory has been opened to a depth of 1,000 feet, explorations on the 500-foot level will be continued. The property is one of the best equipped in the district, and with the showing already made Manager Trenam has no doubt of his ability to make of the property one of the best producers of copper ore in that portion of Utah.
